

Reenergy Power is a leading manufacturer of high-quality lithium-ion and VRLA batteries, catering to the growing demand for efficient and sustainable energy storage solutions. Our batteries are designed for a wide range of applications, including renewable energy systems, and industrial equipment, for residential and commercial applications. We are committed to innovation, reliability, and environmental sustainability. Reenergy Power aims to provide durable, high-performance batteries that empower a greener and more connected world.

|| ■ iPower 10.24

iPower 10.24 represents the pinnacle of technological innovation, utilizing the latest advancements to create a high-performance lithium-ion battery pack capable of meeting the most demanding power requirements of today's applications. Its sleek and modern design looks fantastic and delivers exceptional performance. It's easily integrated into a wide variety of devices and systems

Key Features

Multiple Modes of Operation

Grade A LifePo4 Cell

Built-In BMS

Wall/ ground mounted

Product Details

- Coloured touch LCD screen, Bluetooth & WIFI
- LFP (Lithium iron phosphate) Grade A cells to ensure the highest safety and quality
- Built in BMS for intelligent monitoring and management of the cell temperature, current, voltage, SoC, SoH
- Compatible with wide range of inverter brands
- RS485 & CAN Communication
- Support parallel connection of up to 16 units

Technical Specifications

Items	Description
Rated Voltage	51.2V
Rated Capacity	200Ah
Rated Energy	10.24 kWh
Output Voltage Range	43.2V-58.4V
Charging Voltage	57.6-58.4V
Cut-Off Voltage	43.2V
Max Charging Current	100A
Recommended Charging Current	50A
Max. Discharge Current	100A
Efficiency	>98%
Dimensions L*W*H*mm	680*412*231
Weight (kg)	~86
Humidity	5%-95% Relative Humidity
Charging Temperature	0°C-55°C
Discharging Temperature	-20°C-60°C
Storage Temperature	-10°C-30°C
Cycle Life	8000 50% DOD, 6000 times 80% DOD, 4000 100% DOD (0.2, 25°C)
Design Life	>10 Years
Operating Mode	Touch Screen
